EXPERIENCE

Software Engineer Intern @ Foqal

MAY 2021 - MAY 2021 // San Francisco, CA

- Built new front end with React and Typescript using a GraphQL back end API for B2B customers to create FAQ pages for consumers where admins can easily create and edit articles
- Created API class with methods for GraphQL queries to streamline and organize backend requests for front end developers
- Created End to End testing suite with Cypress to ensure new features do not break previous functionality. Increased coverage by 40%
- Implemented a WYSIWYG editor component that saves user input as HTML for easy retrieval later on

EDUCATION

Rithm School
